## Uji Bridge

### Date

19th century

### Primary Maker

Unknown

### Medium

Watercolor, gold leaf, paper, wood, mother-of-pearl, and metal

### Description

Six panel folding screen, the overall image is of a bridge (going from lower right to upper left), several black trunk willow trees and stream running below bridge. There is a some sort of paddlewheel contraption with jars attached to it in lower left (scooping up water?). Also, there are several round woven shapes (symbolic?) in the image near bottom. There is a black object in upper right portion of image.

### Dimensions

Object: 55 × 109 1/2" (139.7 × 278.1 cm)
